Text: Farlow, Hall, McDill, West, *Differential Equations & Linear Algebra 2E*

Homework: Weekly homework will be assigned on Owlspace and collected at the beginning of class on Fridays. Late homework will not be accepted. You are encouraged to work together on homework problems, but the final write-up must be your own. Problems must be written up in a self-contained way and the write-up must contain all crucial steps and not just the final answer.

Exams: There will be two midterm exams and a final exam. The midterms will be out of class and will take place on Wednesday, September 30, 7-8:30 pm and on Wednesday, November 11, 7-8:30 pm. The date for the final exam is not available at this time. Be aware that it is the policy of the mathematics department that no final may be given early to accomodate student travel plans. Make-up exams will only be allowed in the case of a documented medical emergency. If an exam conflicts with a holiday you observe, please let me know before the end of the first week of classes.

Grades: Homework will count as 15% of the final grade. Each midterm exam will count for 25% of the final grade, and the final exam will count for 35% of the final grade.

Expectations: I expect you to attend every class and to arrive on time. It is your responsibility to keep informed of any announcements, syllabus adjustments, or policy changes made during scheduled classes or posted on Owlspace. I encourage you to utilize your classmates, the recitation sessions, and my office hours to help you understand the course material.

Disability Support: Any student with a documented disability seeking academic adjustments or accommodations is requested to speak with me during the first two weeks of class. All such discussions will remain as confidential as possible. Students with disabilities will also need to contact Disability Support Services in the Allen Center.
